

## TRAIN IS HELD UP BY BOLD BANDITS

### NERVY JOB DONE BY OREGON OUTLAWS.

**Southern Pacific Passenger Robbed Near Riddles, and the Registered Mail Is Rifled and Passengers Thoroughly Searched—The Work Generally Successful.**

Grant's Pass, Ore., July 3.—The Southern Pacific "overland" north-bound, was stopped Monday at 10:15 by three highwaymen near Riddles, about thirty miles south of Roseburg, and robbed. Sticks of dynamite were placed on the rails, which disabled the engine by blowing the flanges off the pony trucks and brought the train to a stop.

Taking the fireman, two of the highwaymen proceeded to go through the train, and every car from the express car to the rear Pullman, was searched. Nothing was obtained from the express car, for there was no treasure on board. In the mail car better success was met, and Portland, Tacoma, Seattle and Victoria, B. C., registered sacks were rifled. Passengers were also searched pretty thoroughly, but just what success was met with is not known.

It is estimated that the robbers secured from \$2,000 to \$4,000 altogether. One passenger in the Pullman gave up \$400; others contributed in amounts ranging from \$3 to \$90. When the cause of the stoppage of the train was known the passengers began hiding money and valuables, throwing them under the seats, in hat racks, and stuffing boots and shoes. Many afterwards dug up and gave at the robbers' request.

After the chief robber had secured his booty he ordered the engineer to proceed north. He then shot out the headlight and fired five additional shots, which was a signal to his companions. They then disappeared in the darkness.

One highw man took a hasty shot at Conductor Kearney, who was in charge of the train, but no damage resulted. The police have a good description of the men, and Superintendent Fields, of the Southern Pacific, in an hour after hearing of the hold-up had two parties on the way to the scene of the robbery. A posse of officers was hastily made up in Roseburg and started at once, and another of rough-and-ready mountaineers started from here. Every effort will be made to capture the robbers. The men of the party starting from here are thoroughly familiar with every foot of ground in the neighborhood of the robbery, and good hopes are entertained of capturing the robbers.

The train was delayed several hours, being compelled to turn the engine around and back into Roseburg.

### A RESPECTED MURDERER, LYNCHED Mob Becomes Exasperated at the Law's Delay at Denton, Md.

Denton, Md., July 3.—That the failure of the law sometimes to mete out justice to those who deserve it exasperates law-abiding people was shown here tonight when a mob lynched Marshall E. Price.

Price assaulted and murdered little Dollie Dean while on her way to school. The people allowed the law to take its course, though there were threats of violence which caused the sheriff to remove his prisoner for safety. Price was duly tried, and convicted, and was sentenced to be hanged on Friday. Monday his lawyers went before Governor Brown, who granted the murderer a respite, so that an appeal might be made to a higher court.

When the news reached here the rage of the people knew no bounds. Here the crime was committed and here good people demanded that Price should get the punishment that he deserved. They saw in the respite a chance that he would escape. So they took the law into their own hands. They stormed the rickety old jail. It was not long before Price's body was dangling from the limb of a tree.

Rumors reached the jail guard early in the evening that many strangers had been seen in the outskirts of the town, and that lynching was probably their object. Price, upon learning this, became greatly alarmed, and begged to be spirited away, but the guards discovered, to their dismay, that every avenue of escape was cut off. They were obliged by overpowering numbers to give up their prisoner. The leaders wore masks, but several of them are known.

He was warned to behave himself in future.

### Attempt to Wreck a Train.

Washington, July 3.—It is believed an attempt was made by robbers Monday night to wreck an east-bound fast express train about thirty-five miles from here. The train was running at high speed about midnight, when suddenly there was a terrific explosion. Though the cars had been considerably damaged and the headlight of the locomotive scattered through the woods, no person had been injured. The train is known as the "money train," and it is thought that dynamite was used to wreck it in the hope of looting the express car.

Galesburg, Ill., July 3.—In the trial of Ida Johnson for the murder of her husband the prosecution attempted to introduce the dying statement of Johnson and Judge Green ruled against admitting the statement, the proof not showing conclusively that Johnson believed he was dying when he made it. This will allow the defendant to make a statement of what transpired before the shooting without fear of contradiction.

### Lawyer Cottle's Abductor.

Buffalo, N. Y., July 3.—A local paper prints a story to the effect that the name of the abductor of Lawyer O. O. Cottle is Claude Strong, and not John C. Emery. "Emery" is said to be the name assumed by Strong at Cincinnati some years ago, where he carried on extensive swindling operations.

### Cabinet's First Meeting.

London, July 3.—The first meeting of Lord Salisbury's new cabinet took place yesterday. The plant is worth over \$1,000,000, but went for \$11,000, just enough to cover the taxes due on the property and the sheriff's costs. The purchaser is the New York Life Insurance company, holder of the mortgage on which the sale was made. The mortgage was for \$350,000, but the interest accumulated ran the claim up to \$370,000. This action leaves the extension creditors without security and nothing to fall back on.

Over 1,000 addresses will be delivered. The largest auditorium in the world will not hold one-fifth of the delegates, so, in addition to the immense Mechanics' Fair Building, two mammoth tents have been made for this convention, and these will be pitched on Boston common. Dr. S. F. Smith, author of "America," has written an original hymn, which he will read on this occasion.

To Test Indiana's Nicholson Law.  
Indianapolis, Ind., July 3.—The new Nicholson temperance law went into effect yesterday. Most of the saloonkeepers are disposed to obey the law. The exception is those liquor sellers who have been running billiard and pool tables and musical instruments in connection with the liquor business. Sam Dinnin has a \$3,000 pipe-organ as one of the attractions at his resort in this city. Yesterday the organ was started up as usual, and going to police headquarters, Dinnin gave himself up, saying he wanted to make a test cast. ### HIS UNIQUE REVENGE.

Discarded Sutor in Illinois Disturbs the Repose of a Bridal Couple.

Chicago, July 3.—In a fit of jealous rage at having been rejected by the girl he loved for his rival, George Cornes, of Romeo, a small town on the Drainage Canal, made a desperate attempt to blow the pair out of existence with dynamite. George Cornes and George Burrows were rival suitors for Mary Settle's heart and hand. She finally accepted Burrows. They were married last Saturday. Cornes told them he would get even by blowing them up. No one believed that he meant it. But last night he broke open a box in which the canal workmen keep their dynamite for blasting purposes and stole two sticks of the explosive. He then placed them under the cabin in which Burrows and his bride, as well as five laborers, were asleep, and just before daylight, touched them off. The cabin was torn to pieces, even the furniture and the beds in which the people were fast asleep were broken up. All the inmates were injured, three perhaps fatally. Cornes was caught later.

### BEGIN TO TRANSMIT POWER.

Niagara Falls Harnessed Up for Commercial Purposes.

Niagara Falls, N. Y., July 3.—The first electric power transmitted for commercial purposes from the plant of the Niagara Power Company, at Niagara Falls, found its way from the electrical power house through the electrical subway for a distance of about a mile Sunday morning and put in motion the machinery of the Pittsburg Reduction Company. Four thousand horse-power of electricity was delivered and engaged in the manufacture of aluminum. It is stated on good authority that generator No. 2 will be supplying 5,000 horse-power within thirty days, and that additional wheels will be put in operation with great rapidity now that the success of the work has been assured. It is said that the Niagara Power Company has contracted with the General Electric Company for its transmission line to Tonawanda and for lateral lines to Depew and Lockport to be constructed at once.

### VICTIMS OF FANATICS.

Many Persons Were Killed by Rioters in Szechuan, China.

Tokio, June 21, Per Steamship Empress of China, Via Victoria, B. C., July 3.—The anti-missionary riots in the Szechuan province occupy the exclusive attention of foreigners in China. Many deaths are reported, chiefly among natives, and the Roman Catholics, and the loss of property is estimated at \$500,000 in the city of Cheng Tu alone. The French envoy professes to have absolute proof that the outbreak was directly instigated by the Szechuan Viceroy, Liu Ping Chang, who has been bitterly hostile to foreigners during his nine years of power. His term of office is about to expire and he has aimed to close his career with a crushing blow against the objects of his hatred. Copies of documents signed by him, or his subordinate officials, who unite in the work of extirpating missionaries, have been discovered and sent to the diplomatic body at the capital. Reassuring statements of the central government are therefore received with suspicion, and especially as no communication with possible victims can be opened.

Later advices say that anti-foreign demonstrations are now reported in all parts of the Szechuan province. A general conspiracy under direction of Viceroy Liu is apprehended. No direct news can be obtained from the imprisoned missionaries, but the Pekin authorities assert that their lives are not endangered. Gunboats are pushing up the Yang-Tse River to the scene.

### Incendiarism at Chicago.

Chicago, July 3.—Three times within two hours last night carefully planned attempts were made to burn down "The Mecca" flats at State. Thirty-fourth Dearborn streets. The incendiary was scared away and escaped just as he was on the point of applying a match the fourth time. The Mecca contains ninety-two flats, and almost every one is occupied by a family. Many of these families take in roomers, so the lives of several hundred people were endangered, both by the panics following the alarms and by the fires themselves had they gained good headway. The owners of the building are utterly at a loss to account for the motive for the crime.

### Testimony Favors Fitzsimmons.

Syracuse, N. Y., July 3.—In the trial of Pugilist Fitzsimmons yesterday, counsel for the defendant asked Judge Ross to dismiss the case upon the ground that the people have not proved a case. Justice Ross denied the motion. Police Capt. Quigley testified that the sparring was light and that he saw Riordan stagger and then assume an upright position and put up his fists and he thought, struck a blow. Dr. U. H. Brown characterized the sparring as very light and when Riordan fell, he says, he heard distinctly the sound of his head striking the floor of the stage.

### Vessel Burning on the Lake.

Erie, Pa., July 3.—Fire far out in the lake was seen at about 7 o'clock last night and an alarm was sounded. The life saving crew went out six miles and a tug nearly twelve, only to see the fire down in the direction of Long Point. It is impossible to obtain any information from here as to what burned. The India came from Buffalo at 9 o'clock, but crew nor passengers saw nothing. The life saving crew is of the opinion that it was a scuttled vessel close to Long Point.

### ENDS A TRAGIC STORY.

Indiana Children Commit Suicide—"Going to Meet Their Father."

Jeffersonville, Ind., July 3.—Investigation has proved that the poison which killed little Lottie and Omer Bennett was not administered by the mother. The children of their own free will swallowed the deadly drugs. The little girl had often told the neighbors they intended going to meet their father, but knowing how much the mother talked of this nothing was thought of it. A letter left by the little girl said she and her brother took their lives of their own accord. The three bodies have been buried in the same grave. The terrible tragedy recalls the killing of thirty years ago of Mrs. Bennett's stepmother by her father, Peter Smith; the murder of Smith seven years later on a ferryboat by his illegitimate son, Thomas Pifer, and the murder of his wife and two children by Pifer five years later, and his own suicide. Next followed the suicide of Benson Bennett, Mrs. Bennett's husband, two years later, and now the triple poisoning of wife and two children completes a bloody family history.

### TO ARREST WHITE.

Police Row in Omaha Reaches Sensational Proportions.

Omaha, Neb., July 3.—The difficulty between the A. P. A. and the municipal reform element reached sensational proportions yesterday afternoon when the details of a plot were made public by which Martin J. White, the present Chief of Police, who was employed in Chicago last week to reorganize Omaha's police force, was to be arrested for impersonating an officer, and Mayor Bemis and Police Commissioners Brown and Beaver for violating the anti-Pinkerton law, in employing White. The developments have created quite a political sensation in the city, and intensified the feeling between the A. P. A. faction and the municipal reform element, the latter representing the business class of Omaha.

### Arsenic in a Flour Barrel.

Washington, Ind., July 3.—A case of wholesale poisoning is reported from Hyatt's Station Monday night, in which thirteen people were affected, three of whom may not recover. Thomas Faith, who runs a sawmill and boards his help, buys his bread of a neighbor named Inglehart. Every person who ate bread became violently sick. It is alleged a relative of Inglehart, who is not on good terms with his wife, visited the Inglehart home and threw poison in the flour barrel. The victims all showed signs of arsenic poisoning. The bread will be analyzed. Inglehart has sworn out a warrant for the arrest of Jake Yager, his son-in-law, who is accused of having put the arsenic in the flour.

## NOISE VERY CHEAP AND TRADE IS GOOD

FOURTH CAN BE CELEBRATED  
AT A SMALL EXPENSE.

The Prices Are About Half What They Were Last Year, and All the Dealers Say They Have Sold Big Bills Already—Some of the Novelties.

Janesville small boys can celebrate the glorious Fourth tomorrow at a very small expense. Fire crackers and noise are cheap in fact cheaper than they have been in many years. The great combination or trust of American manufacturers of firecrackers, candles, balloons, etc., has exploded as completely as one of the cannon crackers and a natural result each of the four or five extensive manufacturing concerns in this country was engaged this season in "running" the others. In some instances their articles were shipped to wholesale and retail dealers throughout the country at actual cost.

In former years prices for the domestic products entering into a spirited celebration of the Fourth were entirely controlled by the combine and prices were kept up to the very highest notch, as a result of which several of the American manufacturers, including Hunt of Weymouth, Mass., the first American to make fireworks, became very wealthy from their business. This year the ordinary crackers, which formerly sold for \$2 to \$2.25 per box of forty packages, are selling for 60 cents a box, making the retail price 2 cents a package or 5 for ten cents, and for the price of a postage stamp the boy who is curtailed on celebration expenses can have as much of a Fourth of July as it cost his father 15 cents to have years ago. The cannon crackers retail from 5 to 50 cents, according to size.

New Explosive Used.

A regular new departure has been made this year in the matter of firecrackers, as far as the domestic article goes, but not in the foreign cracker. The crackers now made in this country are loaded with some patent explosive—neither gunpowder nor dynamite being used, it is claimed—which while creating more first class enthusiasm and racket than the powder-charged cannon of former years, will not ignite and cannot consequently set fire to anything they may happen to come in contact with after being discharged. The Chinese firecracker retains its old-time burning properties. It is also claimed that the average American patent explosive cracker will make as loud a report as three of the Chinese, or one of them three times as large. The largest cracker this year is fifteen inches in length and two in diameter, called the domestic cannon cracker, which makes a report as loud as a field piece. The "Uncle Sam cannon" is the name of another large fellow, intended to awaken the echoes of the dead and departed years, but which creates no fire or burning material after being set off. These as well as the fifteen-inch cannon retail for 25 to 30 cents each. But one of them is enough for one celebration.

Crackers Full of Sparks.

Among the new styles in small firecrackers this year are these: Vesuvius fountains, which produce a long continued spray of scintillating sparks, increasing in force until a genuine volcanic eruption takes place right in your front yard; beautiful, fiery kaleidoscopes, changing rapidly from one color to another; electric illuminators, a queer piece of mechanism; the chasers, which run along the ground, leaving a brilliant serpentine trail behind; contortion candles; colored comet candles; musical rockets, filling the air with myriads of shrill whistles; colored saxon wheels; the wonderful tourbillions or geysers which ascend high in the air, leaving a beautiful rotary stream of colored fire; the water pieces for firing off while floating on the water, and many other new and ingenious pieces, any one of which can be had for a very moderate price this season. The hot-air balloons will also be found to be of a new and novel arrangement this year and instead of persons sending them up having used a sponge saturated in alcohol, a repaired roll is found attached to each and it is only necessary to light this. The roll and the balloon do the rest.

Prices Are About Half.

"Yes, prices are about half what they were a year ago," said one of the Janesville dealers today, "as a result of the reduction of the duty on the foreign articles and the collapse of the American manufacturers' combination."

POWDER  
MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder, Free from Ammonia, Alum or any other adulterant, 40 YEARS THE STANDARD.

The duty being so much lower now than in previous years, brings in larger quantities of the foreign-made goods, while that fact compels the domestic makers to reduce their prices greatly. These articles are lower in price this year than they may be again, as those in the former combination are making strong efforts to get together again.

A good trade is reported by all the local dealers, and doubtless the racket will begin and the first fingers will be blown off before daylight tomorrow morning, and things will hum all day.

THE PROGRAM FOR TONIGHT

JANESVILLE Branch National Association of Stationary Engineers, at 60 West Milwaukee street.

MAY REOPEN OAK LAWN

Directors and the City Physicians Met Last Night.

"The Oak Lawn Hospital association will open its hospital on or about the first day of September, free to the use of all resident physicians, subject to such charges for room, attendance and board as the directors may decide upon. If the physicians so desire two or three of their number, to be selected by the physicians, will be placed upon the board of directors to the hospital."

This was the very liberal proposition that the board of directors of the Oak Lawn hospital made to the city physicians at the joint meeting held in the rooms of the Business Men's Association last evening, when plans were made and ways and means discussed. Captain W. T. Vankirk presided, and stated that the ladies had several plans in view for raising money, and the late Dr. Henry Palmer made a clause in his will that if the income on his property amounted to \$1500 or over, the last \$500 should yearly go to the support of Oak Lawn hospital. Dr. Gibson stated that the hospital could run indefinitely on the present financial prospects, but that there should be some physicians on the board of directors, which sentiment Captain Vankirk endorsed. No definite conclusion was reached, but the matter will also be considered at the meeting of physicians at Dr. Palmer's office tonight.

Dr. J. B. Whiting's idea.

Dr. J. B. Whiting's idea of the matter seemed to be endorsed by the others present. He said there was not a physician in the city but what could fill the hospital with charity patients in thirty days. Considerable discretion was needed and people who could be given better accommodations at the county hospital than they had at home should be taken to that institution, while those who had been accustomed to better quarters, and would suffer in consequence if placed where they could have less comforts and luxuries, should be taken to Oak Lawn. It should be, he thought, more of an emergency hospital, and should be used mainly for emergency cases. He also made a proposition to the effect that he would give ten per cent. of all his fees received from the patients taken to the hospital provided that such a proposition would be entered into by the other physicians, or he would give a subscription of five dollars if the hospital would open immediately.

Favored Immediate Opening.

Dr. Whiting also said that he regretted that the institution could not be opened before September 1 and he thought it would be a good idea if some arrangement could be made whereby a portion of the hospital might be used and allow the tenant, Rev. Victor Southworth, who has been guaranteed a residence there until that time in consideration of his taking care of the premises. He also argued that if the hospital should be allowed to go down it would be many years before the public would trust them with funds for another institution of that kind.

The meeting was entirely informal, after the directors' proposition had been read by Secretary S. B. Smith, and several physicians beside Dr. Whiting expressed their ideas. Dr. George H. Fox stating that he had not been in the city long enough to give him much of an idea about the conducting of a hospital, but in order to succeed it must be conducted properly, and that Dr. Palmer's hospital was so expensive that the physicians could not now or ever support it.

LAWN PARTY AT THE HOME OF  
JAMES S. FIFIELD.

List of the Guests Who Enjoyed Their Hospitality—Art League Excursion a Great Success—Boys' Brigade Lawn Social—Y. M. C. A. Sell Ice Cream—Other Social Notes.

Enjoyable in every way was the lawn party given by Mr. and Mrs. James S. Fifield at their Washington street home last evening. For dancers a polished floor covered the lawn. For the more sedate a broad veranda waited where eyes could rest on the changing groups below. And when soft moonlight and the evening air invited to a promenade there were the leafy walks so charming as to make even the attractions of the dancing floor seem weak—for a moment.

Mr. and Mrs. Fifield and Norman L. Cowles received their guests in the parlors. The point of assembly, however, was the dancing floor that stretched to the sidewalk from the broad piazza, and just above it Johnny Smith's orchestra was stationed, while on the steps and on the settees about the pavilion dancers gathered in the intermissions. The scene was a beautiful one, especially when viewed from the street, many colored lights adding to the charm of handsome toilettes, and making fairly land seem nearer and less impossible.

Refreshments were served in the house during the evening. Those present were:

Boys' Brigade Had a Fine Time.

Lawn Social at the Home of Mr. and Mrs. James Shearer.

A thoroughly enjoyable outdoor event was the lawn social given by the Boys' Brigade of the Presbyterian church at the Mineral Point avenue home of Mr. and Mrs. James Shearer last evening. The grounds were lighted with headlights and Chinese lanterns and refreshments were served on small tables by the boys composing the brigade. Music by the Imperial Band was also one of the features and that really excellent organization won unstinted praise. The occasion also served to mark the first appearance of the brigade, they marching through the streets with the band, attired in their new uniforms and carrying their Remington rifles. Captain Charles Hanson was in command and the lads made a fine appearance. The attendance was large and the profit will be quite a sum.

ART LEAGUE ON AN EXCURSION  
Moonlight Ride On The Columbia Was An Enjoyable Event.

Members of the Janesville Art League spent a delightful evening aboard the steamer Columbia last night and the music of the Orpheus Mandolin Club and Phil Sheridan Jones, the whistler, made a most enjoyable affair complete. Ice cream and cake were served at Crystal Springs after which the boat steamed up the river. Four miles above the Four Mile Bridge, the boat's prow was turned homeward and the party were brought home about eleven o'clock. The whistling of Jones is really wonderful while the Orpheus club added new laurels to its already brilliant reputation. That the affair was a success was the universal expression.

Y. M. C. A. AT THE BURDICK FARM  
Janesville Was Well Represented at a Joint Sunday School Social.

Four Sunday schools in the town of Janesville planned and executed a very pleasant lawn social which was given at the Z. Burdick farm, three miles west of the city on the Magnolia road last evening. The proceeds being donated to the Janesville Y. M. C. A. Excellent music was furnished by the Y. M. C. A. band and the Y. M. C. A. cycling club rode out on their wheels. The affair was much enjoyed by a large crowd and the merriment lasted until a late hour.

BARS FOR FORTY-FIVE

That Number of Licenses Granted—Council Proceedings.

Forty-four saloon licenses were granted by the council last evening the list including the names of those published in The Gazette last evening, and also E. J. McCue, 11 North Main street, M. M. Fardy, 10 South River street. These were granted after the bonds had been examined and approved, and the license committee had reported favorably. The application of Toole & Brennan, corner of West Milwaukee and Franklin street, was granted on condition that their bond was made good by noon today. These licenses put \$22,500 in the city treasury. Nine druggists permits were also granted, after being favorably reported back to the council. Alderman Sutherland presented the following petition signed by the forty-four saloon keepers who had paid their \$500.

Saloonkeepers Want Protection.

TO THE MAYOR AND COMMON COUNCIL OF THE CITY OF JANESVILLE. We, the undersigned citizens of Janesville, having respectively paid to the city treasurer the sum of \$500 for license to sell spirituous, vinuous and fermented liquors for the year ending on the first Tuesday of July, 1896, and intending to engage in such business during said year, respectfully ask the mayor and common council to instruct the police of said city to enforce the laws of this state against persons who may sell such liquors without being licensed therefor.

Dated July 1, 1895.

On motion of Alderman Sutherland the petition was placed on file, and the police instructed to enforce the laws as requested by the petitioners.

Bridge In Bad Shape.

Alderman Hemming, of the highway, street and bridge committee, reported that Fourth avenue bridge was in bad condition, the plank flooring having so rotted that it had given way, and the street commissioner had just closed the bridge to prevent accidents. The committee were directed to make such temporary repairs as were thought best, and report to the council at the next meeting.

The appointment by the mayor of Curley Ward and John Brown as special police for July 3 and 4, without pay from the city, was confirmed, the mayor stating that the appointments were made at the request of the "Great Tycoon" company.

On motion of Alderman Winslow, the police committee were ordered to purchase four new stars for the police force and on motion of Alderman Inman the street commissioner was directed to rake up all the stones from the streets in the Third ward, after which the council adjourned.

Dissolution of Partnership.

The partnership heretofore existing between Louis F. Knipp and William P. Knipp, known as the Louis F. Knipp Brewing company, is this day dissolved by mutual consent. The business will henceforth be conducted by Louis F. Knipp, who will pay all bills and collect all outstanding accounts.

LOUIS F. KNIPP,  
WILLIAM P. KNIPP.

Thanking the public for past patronage and soliciting your future trade, I am, Yours respectfully,  
LOUIS F. KNIPP.

He Couldn't Help It.

Clara—John why don't you express yourself in a different manner?  
John—I haven't a "franc" with any other company my dear. And yet we wonder at the increase in crime. John always has traded with us and our summer suit sale has made him very funny, he isn't the only man either, the values we are giving for little money cannot but help drawing them all to us. Do some figuring. Frank H. Baack.

The Buckboard.

Every boy who comes to our store and purchases a suit of clothing, (no matter what the suit may be) will get free a toy buckboard that would cost you one dollar at any toy store. The only thing to have a good time with this vacation. Frank H. Baack.

## A BOSTON GIRL'S LIFE

Saved from Ruin and Despair by the  
Timely Aid of a Noted Woman.

[SPECIAL TO OUR LADY READERS.]

Is there anything more truly pathetic than the cry for help that springs from the anguished heart of a young girl—a beautiful girl who sees ahead only suffering and uncertainty? But what joy and gladness her young heart pours forth when she realizes that her dreaded enemy, the blasting influence, is gone—banished forever.

This sunshine and joy is now the happy portion of Miss Florence of Beacon Street, Boston.

She often tells of her suffering from the suppression of the menses. The pain was excruciating. The doctors, instead of removing the cause of her ailment, plied her each month with morphine to prevent convulsions; but the trouble was permitted to exist.

When she could endure no more, prostration was imminent and future hopeless,—her family procured a bottle of Lydia E. Pinkham's Vegetable Compound, which, surprising to all, rapidly and permanently cured her.

In writing to Mrs. Pinkham, pouring forth her gratitude and happiness, she says: "Oh! that I could make every suffering woman try your valuable medicine! How they would bless you!"

## Narcoti-Cure

CURES THE TOBACCO HABIT  
IN 4 TO 10 DAYS  
OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not affected when taken according to directions.

Springfield, Mass.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.

Yours truly, W. N. WAITE.

## THIS DAY IN HISTORY

1778—Tories and Indians massacred 900 Americans at Wyoming, Pa.  
 1816—Mrs. Jordan, actress and mother of the 10 children of William IV, died in obscurity at St. Cloud, France; born in Ireland 1762.  
 1871—Rome declared capital of Italy with imposing ceremonies. Rome had been the capital of ancient Italy and ultimately of the Roman empire. After the downfall of the western empire it dwindled to a city of 13,000 inhabitants. Under the popes it was restored and enlarged, but many periods of war and turbulence checked its development. During the last 100 years it has been several different times occupied by the French and on the withdrawal of Napoleon's troops in 1870 was occupied by an Italian army, and its citizens submitted to the authority of the king of united Italy.  
 1892—Tornadoes, floods and waterspouts wrought terrible destruction in six western states.

## WORKMEN FEEL IT FIRST.

The boom in trade this year is the most significant in three decades. Its remarkable feature is that wages of workmen have been first to feel the recovery.

Ordinarily it is just the other way. But the prostration brought by the tariff tinkers of the Cleveland administration so greatly reduced the amount paid for labor, which constitutes the purchasing power of the millions, that substantial recovery in business and in the various industries could not be expected until the people were enabled by larger earnings to expend more freely. So the first clear sign of recovery was the advance in wages at many establishments, notably at the coke works and at many cotton mills. Shortly many iron works followed and this general improvement continues. Owing to difficulties caused by the new tariff, it is retarded in a measure in the tin plate works, potteries and glassworks, and some minor manufactories, and especially in most branches of the woolen manufacture. Many workers in these suffer because of the discriminating unwisdom of those who framed the tariff of "perfidy and dishonor." But it is gratifying to know that in most departments of labor the progress toward restoration of wages paid in better times is reasonably rapid.

## NOT A GOOD GUESSEER.

It takes more than a discrepancy of \$113,250,000 to shake Secretary Carlisle's faith in his own predictions. He assured the country a year ago that in future the revenue derived from the Wilson tariff would be ample to meet all expenses. He winds up the year with a shortage of over one hundred million, over a third of which has been piled up since July, 1894.

Does that trouble him?

Not a bit.

It merely gives more zest to his third "annual financial forecast." He doesn't attempt to explain why his theories and the facts are at variance by so many million dollars. He airily gives assurance that the year to come is the year he has in mind. Instead of July 1895 it is July 1896 that will see revenue and expenditures balanced. Secretary Carlisle was \$90,000,000 out on his first calculation. He was \$43,250,000 out on the other. Where he will land with his third is hard to say, but business men who aim to have their New Year's estimates of expenses verified in some measure by their December totals will look on his figures with considerable doubt.

## NOT PARTIAL TO SILVER.

Why don't those silver people show more consistency? Take the banks out in the silver country, for example. The Utah banks hold twenty-one times as much gold as silver, the Arizona nine times as much, and the Nevada banks eight times as much. The Colorado banks possess over \$30,000,000 in gold and only one-tenth of the amount in silver. This shows good judgment but it doesn't furnish much of an argument for filling six more of the sub treasury cellars with silver, as our western friends desire.

There will be very little republican oratory needed in factory districts next year. Workingmen are not blind and they realize how speedily advanced wages have followed republican victories. The list of advances has grown too long to print, but cases near home are always worth noting and the fact that a 10 per cent rise in Illinois Steel Co. wages took effect yesterday will be heard with general satisfaction. All classes of men are included in this advance except the tonnage men who work on a sliding scale and whose pay therefore regulates itself.

Since Oak Lawn hospital was closed the only shelter for victims of accidents has been the jail. It was to the jail that William Myers was taken Monday night after being struck by a train in the C. & N. W. yards. Now

a cell, however handsomely white-washed and however sumptuously furnished in oak and wrought iron, is not a fit place for an emergency ward and the sooner the city provides other quarters the better.

Boss Wall is nothing if not a weather prophet and when he runs down cellar other democrats realize that a cyclone must be in sight.

We learn from the Milwaukee Journal that this drouth in Wisconsin is attributable wholly to the republican party.

## Its Pure.

## NUPTIAL BONDS CUT BY JUDGE BENNETT

BELOIT AND EVANSVILLE COU-  
PLES ARE DIVORCED.

They Will Now Be Able To Celebrate  
"Independence Day" with a Will,  
as It Is Now a Condition, Not a  
Theory, with Them—Other News  
Gathered About Town.

MINNIE M. ROWLEY of Evansville and Wallace P. Winn of Beloit will, no doubt, keenly enjoy the celebration of Independence day tomorrow, as they were released from their matrimonial obligations by Judge Bennett today. The first case heard was that of Wallace P. Winn against Alice Winn of Beloit, it being an action for divorce on the ground of plain desertion—the defendant refusing to longer reside with Wallace as his wife. After listening to the testimony, the judge ordered a judgment. E. D. McGowan appeared for the plaintiff. The next case was that of Minnie F. Rowley against Fred F. Rowley of Evansville. Cruel and inhuman treatment was the allegation, which consisted, it was shown, of neglect and overwork. John M. Olin of Madison, appeared for the plaintiff and obtained judgment together with \$700 as the plaintiff's share of the estate and permanent alimony.

WHILE driving this noon, Charles Schaller collided with the pole of the Ferris Ice Company's wagon, which swung around just in time to catch Mr. Schaller's jug. He put his right hand out to ward off the tongue, when it caught his middle finger, tearing it in a painful manner. Dr. Gibson dressed the wound.

The country will be full of them tomorrow, celebrations, we mean. Some people will celebrate two ways, but we are going to hold ours after the Fourth; every day, then, will be full of explosion; prices knocked sky high by our fifty cent on the dollar shoe sale. Any kind or style all the same. Becker & Woodruff.

OUR aim first is to give people the highest grade shoes possible to obtain, second to make them prices on these shoes that will bring them to us again. The trade we have built up in the past and our increase each day is proof that our dealings are honest and appreciated by the masses. A. Richardson Shoe Co.

## RAN FOR DEAR LIFE FROM AN OIL FIRE

WORKMEN DRIVEN FROM THE  
BURNS BUILDING.

Loss of \$3000 Caused by the Explosion of a Gasoline Lamp in Ben. Hanson's Paint Shop—Twenty-Five Carriages Burned—Flames Spread Very Fast.

There was a \$2,000 loss by fire in the J. H. Burns carriage factory at 8:30 this morning and two men narrowly escaped. They were Ben Hanson and John Hoefler. Both men lost their entire stock of tools and materials.

A gasoline paint-burner caused the fire. Only a moment passed between the time the blaze started and its spread through the shop. A spark in powder can hardly could have worked faster.

Hanson, who occupies most of the upper part of the building as a paint shop, was lighting the gasoline lamp he uses to blister the paint on old buggies. The lamp refused to burn steadily for a moment. Then it flared up and threw flames in every direction. Near by was the gallon can of gasoline out of which the lamp had been filled. This was ablaze in a second. Hanson kicked at it desperately hoping to send it through the open door into the street. Instead it burst and the burning oil was thrown about the room.

How Hanson escaped is a mystery. He had barely time to get through the door and out on the broad carriage stairs before the room was a sheet of flames. With him ran John Hoefler, the carriage trimmer on the same floor. Hoefler had tried for a moment to check the fire with water but was forced to retreat so rapidly that he was unable even to catch up his hat. Help At Hand Instantly.

The Burns building stands at the corner of Franklin and Wall streets, so the west side engine house is but half a block away. Firemen were on the spot almost instantly and four powerful streams were pouring into the shop as soon as hose could be laid. Direct pressure was quickly obtained, and the pressure was very effective from the first. The fire was literally drowned out—a difficult task in rooms full of paints, oils and dry lumber.

In the few minutes the fire burned it destroyed twenty-five carriages. Hanson's outfit of paints, oils and tools, and John Hoefler's shop equipment of tools and trimmers' supplies, besides demolishing most of the wood-work in the second story and eating through the roof. The first floor of J. H. Burns' shop, was not injured except by water. The losses are estimated as follows:

Damage to building \$1000. Insured for \$1700.  
Ben Hanson, painter's tools and stock, \$300. No insurance.  
John Hoefler, carriage trimmers' tools and stock, \$200. No insurance.  
J. H. Burns, damage to stock by water, \$100.

Many Lost Their Carriages.

Besides this loss of \$1000, fully \$1500 worth of vehicles were destroyed. C. C. McLean had just sent in a \$600 hack to be repainted, and Hanson was burning the paint off it when the explosion occurred. John Barless, M. Dawson, F. Hodge and C. H. Belding had buggies in the shop finished and ready for delivery. J. H. Burns had twelve carriages waiting to be painted. Louis Schutt, the woodworker in the shop, had five, Will H. Ashcraft had one, Nels Hanson one, T. P. Burns one, and Ben Hanson himself, had one.

The loss fell especially heavy on Hanson, who was just establishing a good business, after being laid up for a long time with a broken arm. He had no insurance, and was left without tools, stock or money. A subscription for his benefit was started in the crowd when these facts became known.

T. B. Burns, owner of the building had \$1,700 insurance; \$500 in the Norwich Union and \$500 in the London and Lancashire, represented by A. J. Baker and \$700 in the Union of Philadelphia, represented by H. H. Blanchard. J. H. Burns, the occupant of the lower floor, had \$400 insurance on his stock written with H. H. Blanchard's agency.

TWO MINOR FIRES SQUELCHED.

Mrs. McKewan's House Damaged—Molten Sugar Flares Up at J. Spivak's.

The residence of Mrs. Mary McKewan, 1 Ruger avenue, was slightly damaged by fire yesterday. An overheated stove set fire to the wainscoting. This was extinguished, it was thought, without damage, but a smouldering fire behind the wainscoting worked up between the studs until it reached the roof. This was extinguished after much hard work, without turning in an alarm.

A cauldron of melted sugar took fire in Spivak's candy store in the Lappin's block, at 10:30 o'clock this morning, which filled the store with suffocating smoke, and for a moment threatened to cause another fire alarm. The cauldron was thrown out in the back alley and no damage was done.

## BRIDGE IS NOT SAFE AND IS CLOSED UP

FOURTH AVENUE STRUCTURE  
CONDEMNED.

It Will Be Replanked and Repaved the Full Length Under a Contract Given to Ryan & Brown, the Work to Begin Next Friday—Holes Found in the Decking.

Fourth Avenue bridge is in dangerous condition and has been closed. The condition of the bridge was reported to the council last evening, when Alderman Hemming, chairman of the highway and bridge committee, said that the bridge had been closed and that the street commissioner had found the flooring rotten and dangerous, many holes being found during the examination in the afternoon.

With this information the council instructed the committee to repair the bridge in such manner as they deemed proper. This morning the committee examined the bridge and found it necessary to condemn it, and directed the street commissioner to replank and repave its entire length at once.

Later on it was developed that no suitable lumber could be procured for the bridge floor, without considerable delay and the committee awarded the contract to Ryan & Brown, to do the work at the same price as agreed upon for repairing the Milwaukee street bridge, using the lumber procured for that contract. Ryan & Brown will commence the work on Friday.

The bridge was built 7 years ago by private subscription. The plank used for the floor was taken from Court Street bridge when that bridge was replanked and paved, the plank when laid were simply turned over. Soon after being completed the bridge was turned over to the city, and paved with cedar blocks. The plank flooring being partly decayed when put down, soon rotted, until the boards are now not strong enough to hold up the blocks.

Janesville people bought tickets for Monroe, Albany and Rockford, while some went to Clinton.

## THE CITY CLEAR OF TRAMPS.

Chief Acheson Failed To Find Even One Solitary Hobo.

If Janesville was ever free of tramps is at present, for a thorough search of the railroad yards failed to bring a solitary hobo to view and the yardmen in both roads say that a tramp has not been seen in the past two weeks. The police think that the last laid at the Five Points had its effect. There is little doubt but what the record of the Janesville police force is well established throughout the tramp kingdom.

None can speak better than did Thomas Paine—"To do good is my religion. There can be no substitute for this. It is the religion of all good men whom the world has ever seen. It is the religion of Jesus. With or without your forms and formulas, with or without your creeds and your confessions of faith, to do good is religion, and there is no other. **Obstructions on the Highways.**  
Are sometimes allowed by the authorities to remain too long, but when that important outlet to the refuse and debris of the system—the bowels—become obstructed, Hostetter's Stomach Bitter promptly "raises the blockade." This it does, too, without creating any abdominal disturbance in the way of griping, an unpleasantness always produced by a drastic purgative. No permanent, decisive relief from constipation can be obtained through the agency of a violent cathartic. Mandrake, blue pills, salts and senna and calomel, while they evacuate the late's line, weaken and partly unfit it for future usefulness. Hostetter's Stomach Bitter, on the contrary, invigorates the whole abdominal region and promotes a regular secretion and flow of bile. Use this time honored remedy also in malaria, dyspepsia, rheumatism, nervousness, in cases of debility, and for kidney trouble. It confers both appetite and sleep.

## JOINT SCHOOL CELEBRATION.

Districts of No. 4 and 7 of Harmony Township join in a picnic.

The schools of districts Nos. 7 and 4 of Harmony, taught by Miss Babcock and Miss Carrie Brown, celebrated the last day of their terms last Friday by joining in a picnic at Spaulding's lake. A very interesting program was given by the scholars assisted by the teacher and ladies of No. 7. After dinner the boys of the schools played a ball game which resulted in the defeat of No. 4, the score being 14 to 3. The large attendance of fathers and mothers speaks very loudly of the interest which the good people of Harmony feel in the training of the young minds.

## FAIRFIELD RAISED A BIG FLAG.

Gala Time At The Bradford Center Church—Other News Items.

Fairfield, July 3.—Last Friday quite a crowd assembled at the Bradford Center church to witness the exercises connected with the flag raising. Addresses were given by Superintendent Throne and Revs. Stubbett, Dexter, Leek, and William Mayhew of Clinton and songs by Mr. Wierick of Shopiere. The school presented an interesting program consisting of recitations and songs. Much credit is due the teacher, Miss Rye, in training the children, also to the Smith brothers in their untiring efforts to make the exercises a success. After the program the school adjourned to Rocky Dell for a picnic. The Bradford school is to be complimented for its patriotism and it is hoped that many more schools will follow the example. J. Rokenbrodt visited his daughter, Mrs. C. McCarthy last Friday and Saturday. The new mail carrier left on Monday morning for his first trip. Mr. Smith has the confidence of the people, and all join in wishing him success in his new business. Next Saturday quarterly meeting will be held at the Methodist church. Rev. Potter, of Allen Grove, will preach. Mrs. F. H. Wilkins received the sad news of her sister-in-law's death, Mrs. J. B. La Grange, of Janesville, last Thursday. Miss Ada More has returned from Milton college. D. R. Williams has returned home much improved in health. Dr. and Mrs. Herne of Whitewater recently visited their daughter, Miss Annie, of this village. Several from this place attended the reception given Mr. and Mrs. W. D. McArthur at the residence of J. M. McArthur last Wednesday evening and all report an enjoyable evening. Mr. and Mrs. Charles Robinson recently visited Geneva Lake and were guests at C. Slocumb's. A good crowd and a pleasant time is the report from Mr. C. Dykeman's social. Mrs. F. H. Wilkins is convalescing from her recent illness. Mrs. John Dykeman and daughter attended the Delavan High School commencement exercises last Wednesday evening.

Travelers find a safe companion in De Witt's Colic and Cholera Cure. A change in drinking water and diet often causes severe and dangerous complaints. This medicine always cures them. C. D. Stevens.

## THE NEWS OF EMERALD GROVE

School Closed Tuesday—Rye Crop is Light—Cutting the Hay

EMERALD GROVE, July, 2.—Miss Hattie Butler closed school in the Proctor district Friday, June 8. N. T. Slawson, who has been in this vicinity for the past week in the interest of the Mutual Relief association of Madison, enjoyed a day's fishing at Delavan lake last week. The young people who gave the programme for children's service Sunday morning, repeated part of the same at Johnstown in the afternoon. Arthur Boumes, Herbert Roos, and Lowell Beach came up from Chicago on their wheels last week, and are visiting with Mr. and Mrs. Hammond. Children's day was observed June 30 at the Congregational church with an interesting programme. Mrs. Hammond and daughter drove to Kenosha last week for a two week's visit. Mr. and Mrs. H. A. Forbes, of Trinidad, Col., are visiting relatives here. Haying has begun; also rye cutting, which will be below the average this year. The many friends of Mr. and Mrs. Joseph B. Earle will be pleased to hear of the success of their son and daughter who graduated at the West Division High School in Chicago. Miss Edna was first in the class of two hundred, and won the Harlan Mathematical prize of one hundred dollars in gold. Orrin stood second in the class.

You Don't Have to Swear Off says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one, a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by E. B. Heimstreet. No cure, no pay. Book free. Sterling Remedy Co., New York or Chicago.

## SIGNAL TRIUMPHS WON.

By Dr. Price's Cream Baking Powder.

The signal triumphs have been achieved by Dr. Price's Cream Baking Powder. First it received highest award and diploma at the World's Columbian Exposition of 1893. Next it secured highest award and gold medal at the California Midwinter Fair of 1894. At both fairs it surpassed all competitors in every respect. The award in each instance, was for strongest leavening power, perfect purity and general excellence. It was sustained by the unanimous vote of the judges.

The victory at Chicago establishes the supremacy of Dr. Price's as "The Foremost Baking Powder in the World." The triumph at San Francisco confirms and emphasizes it.
